- Clinicians
- Dermatologists
- Pathologists
- Surgeons
- Dentists
- Cardiologists
- Physician Assistants
- Ophthalmologists
- Healthcare Professionals
- Practitioners
- Nurses
- Diabetologists
- Nutritionists
- Immunologists and many more...

Speaker Opportunities & Group Discounts Available

We recommend you listen to the feedback from the experts who attended our previous conferences!

"It was my pleasure to participate in the 3rd International conference on Pediatrics in San Antonio earlier this month. I had the opportunity to meet numerous pediatric colleagues from both the United States and Internationally. My keynote lecture was well received and I found the organizers to be very cordial. The meeting ran very smoothly from beginning to end and the facilities were wonderful!"

Howard S Weber, Director of Interventional Pediatric Cardiology, Penn State Hershey Children's Hospital, USA

"The 4th International conference on Nephrology & Therapeutics enabled nephrologists and other health care professionals worldwide to exchange views on a broad spectrum of kidney diseases from bench-to-bedside. By bringing together practicing physicians, clinical researchers, and scientists from around the world, the conference offered a unique opportunity to exchange novel findings in the fields of general nephrology as well as transplantation-related topics".

Phuong-Thu Pham, Professor, University of California, USA

"I enjoyed participating in the Pediatric Cardiology conference 2015 as this provided me the opportunity to interact with many providers caring for children with cardiac concerns all over the world. The opportunity to share perspectives on an international level provides me not only with a new perspective, but also an appreciation of for all the challenges that exist in providing excellent care to all children affected with cardiovascular disease throughout the world. It was a pleasure to share some of my work at this conference, and learn from others regarding their work".

Ivan Willmot, Cincinnati Children's Hospital Heart Institute, USA
